

Client Meeting

7 APRIL 2024 / 4:30 PM / GOOGLE MEET

Attendees

Manish Tiwari, Aditya Shankar, Eshwar Sriramoju, Hiten Garg, Monosij Roy, Shlok Sand

Discussion Points

1. Switch from watt-based to current-based charging control.
2. Adjust logic to handle dynamic current limits.
3. Ensure compatibility with existing hardware.
4. Plan for clean handoff of codebase.
5. Support and communication plan post-handoff.

Action Items

1. Update charging logic to current-based control.
2. Document key modules and code structure.
