

Minutes Of Meeting

Date - 21 February 2025

Attendees - Hiten, Shlok, Aditya, Eshwar, Monosij

Meeting Agenda: Discussion on VTN pricing, Master VEN, and deployment scenarios

Key Points Discussed:

1. VTN Price Handling:

- The price will be provided directly by the VTN (Virtual Top Node).
- No additional system is required for handling pricing, especially in the final deployment.
- Any pricing-related system is only needed for testing purposes.

2. Master VEN & Cerotech Backend:

- The Master VEN software is managed and run by Cerotech's backend.

3. VTN Server Hosting:

- Currently, the VTN server is hosted by Cerotech for development and testing.

4. Main Deployment Scenario:

- In the actual deployment, the VTN will be hosted by the power utility providers.
- The power utility providers will also be responsible for providing the price data.
