Meeting with client

25 JANUARY 2025 / GOOGLE MEET

Agenda

Progress report

1. Team provided updates on **installing Rust** and running the **OpenLeadr GitHub repository**.
2. Discussion on issues faced during installation and execution.

Preparation for Offline Meet

3. Identifying **key topics** to be covered in the upcoming offline meeting.
4. Prioritizing technical challenges and project scope discussions.

Alternative approaches

5. Explored alternatives to Rust, such as using **Python** or **Java** for implementation.
6. Discussed feasibility, performance, and compatibility of each option.

Next Steps

7. Continue troubleshooting OpenLeadr setup.
8. Finalize discussion points for the offline meet.
9. Research further on alternative approaches if needed.

Next Meeting Agenda

1. Decide on what technologies are to be used in the project based on the further troubleshooting done by the team.
